Smilio A - Timekeeping

Real-time monitoring of staff interventions

Smilio A – Timekeeping is a system of 5 connected buttons which guarantees a more efficient monitoring of staff interventions, notably on distant sites: proof of presence (clocking of arrivals / departures), authentication through a unique 5-digit code.

PRODUCT DESCRIPTION

Smilio A – Timekeeping is a system of 5 connected buttons which guarantees a more efficient monitoring of staff interventions, notably on distant sites: proof of presence (clocking of arrivals / departures), authentication through a unique 5-digit code.

The central button can be configured as a call button or report any problem that needs a particular corrective action. Thanks to an integrated badging device, **Smilio A** can also be used by employees equipped with magnetic badges. Some SMS/Email alerts can be automatically

triggered in case of abnormalities, thereby enabling better emergency management (replacements, delays) and appropriate communication towards final customers. With **Smilio A - Timekeeping**, you likely have trusted indicators to demonstrate your engagements and optimize your quality of service.

Unique benefits:

- Dual mode LoRaWAN/Sigfox wireless technology. No wifi, no 3/4G, no infrastructure work required before installation
- “Proof of Presence” Technology: integrated magnetic sensor for staff time-stamping
- Buttons without moving parts + antibacterial treatment = record hygiene and durability
- Up to 6 years battery life (not included)
- Inopportune voting filtration system
- Remote configuration via Downlink
- Indoor or outdoor installation (IP65)
- Resistant to temperatures from -10°C to +45°C

Weight	0,2 kg
Frequency band	AS923 (Japan), EU 863-870 MHz (Europe, Middle East, Africa), US 902-928 MHz (USA, Canada, Mexico City, Brazil)
