PRODUCT DESCRIPTION

Smilio A – Validation is composed of 3 connected buttons which allow to trigger an action, cancel it if necessary, and capable to time-and-date-stamp staff interventions thanks to an integrated badging device. A third button enables to confirm or to express satisfaction on the intervention made.

Strategically placed, **Smilio A** can be part of multiple use cases. It offers the opportunity to take immediate action and report any kind of event that can improve operational effectiveness: restocking of consumable materials, on-demand services such as cleanliness or

maintenance operations, waste collection, optimization of delivery rounds, call button on production lines, etc.

Unique benefits:

- Dual mode LoRaWAN / Sigfox wireless technology. No wifi, no 3/4G, no infrastructure work required before installation
- "Proof of Presence" Technology: integrated magnetic sensor for staff time-stamping
- Buttons without moving parts + antibacterial treatment = record hygiene and durability
- Up to 6 years battery life (not included)
- Inopportune voting filtration system
- Remote configuration via Downlink
- Indoor or outdoor installation (IP65)
- Resistant to temperatures from -10°C to +45°C

Weight   0,2 kg
