Used around the world, our benchmark kiosk is delivered to your home **ready for use**. This will allow you, based on customer reviews, to manage your store or service.

EVERYTHING IS INCLUDED FOR 3 YEARS:

- The **satisfaction measurement kiosk** and his A4 wall display unit
 - **Telecommunications** costs and subscription to the Satisio survey software for 3 years
-

PRODUCT DESCRIPTION

HOW THE SATISFACTION KIOSK WORKS

The Smiley Signature kiosk is very easy to use:

- Print out the question you want to ask customers.
For example: "How do you find the atmosphere in the store? "," Did you like the dish of the day? "," how was the atmosphere at work today? ","Did you appreciate the service offered to you?"
- Place the satisfaction kiosk in the appropriate location.
- Ready to use ! The votes are transmitted for each press. You can view the results in real time from your cloud interface. The data can be viewed from any recent web browser. You can monitor your indicators from home, even when you are not present in your business premises.

INSTALLATION

The terminal is delivered in a fully equipped package which contains everything to assemble your terminal. You will see, it is easier and faster than putting together a Swedish wardrobe as a complete kit!

CONNECTIVITY

When ordering, you will be asked for the installation address of the terminal. We will thus choose the most suitable telecommunications network. If there is no network, we will offer you an alternative solution. If no solution exists, we will refund your order.
