Support to get started with Ubiquod

This support gives you access to a **video conference appointment** with one of Skiplify's project managers. This person will accompany you and help you on the Ubiquod platform. He will also advise you so that you become autonomous on the platform.

The Ubiquod platform allows you to create professional applications based on QR codes and connected buttons.

You can create a [free Ubiquod account here](#).

PRODUCT DESCRIPTION

Skiplify's Ubiquod cloud platform makes it easy to build connected business applications based on:

- Standard QR codes (look [Ubiquod professional QR code generator](#))
- [Secure QR code Ubiquod Key](#)

- SkiPLY [Smilio A Wireless Connected Buttons](#)

The "Ubiqod support" is a qualified internal member of SkiPLY who will come to accompany and help you on the Ubiqod platform. She will also give you advice so that you can become autonomous on the platform.
